PM Crane Training Course

PM Industries Ltd is western Canada's PM Crane distributor, located on Vancouver Island and servicing the island as well as the lower mainland. We are a Canadian Owned and Operated company with a local mentality and a huge service attitude. We offer a CraneSafe Pre-test course so you can take the test with the knowledge and confidence that you will need to pass it with confidence. With years of crane servicing and extensive repairs under our belts, becoming a PM Crane distributor seemed to be the next step in a better relationship with our clients. We not only service and maintain PM crane models we also work on Hiab and National cranes just to name a few. Our well equipped facility services, maintains, and test 70+ cranes and 400+ trucks, trailers, pickups and forklifts on Vancouver Island as well as Vancouver and Delta. Along with the extensive maintenance schedule we keep we also offer, non-destructive testing, Structural Inspection (engineer sealed) 360 degree stability testing.
